

QCPPainter::setPen

```
graph LR; A[QCPPainter::setPen] --> B[QCPPainter::makeNonCosmetic]
```

A diagram illustrating a function call. On the left, a gray rectangular box contains the text 'QCPPainter::setPen'. A blue arrow points from the right side of this box to the right side of a white rectangular box on the right. This white box contains the text 'QCPPainter::makeNonCosmetic'. Both boxes have a thin black border.

QCPPainter::makeNonCosmetic
