

MainWindow::on_pushButton
_archived_print_clicked

MainWindow::on_pushButton
_result_print_clicked

MainWindow::printResults
ViaTermal

```
graph LR; A[MainWindow::on_pushButton_archived_print_clicked] --> C[MainWindow::printResults ViaTermal]; B[MainWindow::on_pushButton_result_print_clicked] --> C;
```

The diagram illustrates a function call relationship. On the left, two white rectangular boxes with black borders represent source functions. The top box contains the text 'MainWindow::on_pushButton_archived_print_clicked' and the bottom box contains 'MainWindow::on_pushButton_result_print_clicked'. On the right, a gray rectangular box with a black border represents the target function, containing the text 'MainWindow::printResults ViaTermal'. Two blue arrows originate from the right side of the source boxes and point towards the left side of the target box, indicating that both source functions call the target function.
