

modeDialog::frameTypeSelection

```
graph LR; A[modeDialog::frameTypeSelection] --> B[modeDialog::frameTypeSelected];
```

A diagram showing a transition from a selection state to a selected state. On the left, a gray rectangular box contains the text 'modeDialog::frameTypeSelection'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. This white box contains the text 'modeDialog::frameTypeSelected'. Both boxes have a thin black border.

modeDialog::frameTypeSelected
