

QCPCurve::setData

```
graph LR; A[QCPCurve::setData] --> B[QCPCurve::data]
```

A diagram illustrating a function call. On the left, a gray rectangular box contains the text "QCPCurve::setData". A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text "QCPCurve::data". Both boxes have a thin black border.

QCPCurve::data
