QCPLayoutElement::setMinimumSize

QCPColorScale::update

QCPLayoutElement::setMinimumSize

```
graph LR; A[QCPAxisRect::QCPAxisRect] --> D[QCPLayoutElement::setMinimumSize]; B[QCPPolarAxisAngular::QCPPolarAxisAngular] --> D; C[QCPLayoutElement::setMinimumSize] --> D; E[QCPColorScale::update] --> D;
```

The diagram illustrates a call graph where four different functions or constructors point to a single target function. The source boxes are arranged vertically on the left, and the target box is on the right. Blue arrows connect each source box to the target box. The target box is shaded gray, while the source boxes are white with black borders.
