

QCPItemTracer::draw

QCPItemTracer::setGraph

QCPItemTracer::updatePosition

```
graph LR; A[QCPItemTracer::draw] --> C[QCPItemTracer::updatePosition]; B[QCPItemTracer::setGraph] --> C;
```

The diagram illustrates a call relationship between three methods of the QCPItemTracer class. On the left, two white rectangular boxes with black borders contain the method names 'QCPItemTracer::draw' (top) and 'QCPItemTracer::setGraph' (bottom). On the right, a gray rectangular box with a black border contains the method name 'QCPItemTracer::updatePosition'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'draw' and 'setGraph' call 'updatePosition'.
