

QCPAbstractPlottable1D
::selectTest

QCPAbstractPlottable1D
::selectTestRect

QCPDataContainer::findEnd

```
graph LR; A[QCPAbstractPlottable1D::selectTest] --> C[QCPDataContainer::findEnd]; B[QCPAbstractPlottable1D::selectTestRect] --> C;
```

The diagram illustrates two separate calls to the `QCPDataContainer::findEnd` method. On the left, two white rectangular boxes represent the calling methods: `QCPAbstractPlottable1D::selectTest` (top) and `QCPAbstractPlottable1D::selectTestRect` (bottom). On the right, a gray rectangular box represents the target method: `QCPDataContainer::findEnd`. Two blue arrows originate from the right side of the white boxes and point towards the left side of the gray box, indicating the direction of the function calls.
