

QCustomPlot::clearItems

```
graph LR; A[QCustomPlot::clearItems] --> B[QCustomPlot::removeItem]; B --> C[QCustomPlot::item]
```

The diagram illustrates a sequence of three QCustomPlot methods. It begins with a gray box labeled 'QCustomPlot::clearItems'. A blue arrow points from this box to a white box labeled 'QCustomPlot::removeItem'. Another blue arrow points from the 'removeItem' box to a final white box labeled 'QCustomPlot::item'.

QCustomPlot::removeItem
