

QCPPolarGrid::QCPPolarGrid

```
graph LR; A[QCPPolarGrid::QCPPolarGrid] --> B[QCPPolarGrid::setAngularSubGridPen];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'QCPPolarGrid::QCPPolarGrid'. The right box is gray with a black border and contains the text 'QCPPolarGrid::setAngularSubGridPen'.

QCPPolarGrid::setAngular
SubGridPen
